Bill -

Reference is made to a letter dated April 10, 1956 from J. L. G. to you.

Paragraph 3 of this letter states in part "certain rolls in the P-3-300 size have been edge printed (i. e. they bear the Kodak name)." The following represent the first two numbers of each emulsion in question.

4-1	(8 Rolls)
5-2	(4 Rolls)
6-5	(16 Rolls)
6-4	(20 Rolls)
6-3	(4 Rolls)
6-2	(20 Rolls)
6-1	(24 Rolls)

As mentioned in J. L. G.'s letter it is quite probable you have not received the bulk of these rolls and that they will come to you with Attachment B training material.

The above edge printed material should be used exclusively for test purposes at the Site.
